

Erasable Waterproof Signs are an economical substitute for White Boards and Dry Erase Markers. Our EraseASign material is a sturdy white polypropylene plastic sold custom pre-printed or plain.

Dry-Erase Markers are used for temporary marking. Examples are Expo (major brand name) \$1.48-\$1.68 local stationer; Rmarx (Staples brand) 4 for \$5.90; and Encore (discount store) 3 for \$1.00). Try before you buy if you can!

Erasing Cleaners are required for removing Dry-Eraser. We tested Expo White Board Care Cleaning Wipes (Staples - 50 wipes for \$9.99), Rejuvenex Dry-Erase Board Wipes (Dollar Store 50 for \$2.00) and Expo White Board Cleaner in a spray bottle part of a marker kit (Staples). Try before you buy if you can!

Water Soluble Markers (Staedler non-permanent Lumnocolour) washes off with water. Waterproof material stays waterproof, but not suitable for wet surroundings. No special wipes required.
